Second Quarter 2023 - April

Don't Lose Clients Because of Tax Filing Complications

Be sure clients get the premium tax credit they deserve!

Clients who had a Marketplace health plan in 2022 received their **1095-A Health Insurance Marketplace Statement** in the mail mid-February.*

Clients need to use their 1095-A to file Form 8962 with their tax return. If they don't, they could lose their premium tax credit, resulting in higher premiums on their plan.

It's important for clients to use these two forms to file their taxes correctly and on time. These two forms determine the amount of their premium tax credit and record the credits they used to lower their health plan premiums. Both forms are required when clients are filing their taxes.

Visit the [How to use Form 1095-A](#) web page on [HealthCare.gov](#) for help on filing the 1095-A and Form 8962 correctly.

*For Washington, members will only receive a paper copy of their 1095-A in the mail if they've signed up for mail notification through their Washington Healthplanfinder account. Members can view or print a digital copy of their 1095-A by signing into their account at [www.wahealthplanfinder.org](#) and going to their Message Center or by downloading the WAPlanfinder mobile app.
